

CARBON AUDITOR TRAINING

Learn how to undertake Greenhouse Gas (GHG) audits efficiently and effectively and prepare audits reports and opinions.

This 2-Day course covers the requirements of ISO 14064-3:2019 for auditing organisational inventories, and prepares participants to perform the complete audit process including:

- auditing principles
- audit team selection
- preparing for audit
- audit activities and techniques
- how much review is enough?
- preparing audit reports and opinions

The course will include a mix of audit theory and practical activities.

Who will benefit most from this training?

This is an introductory carbon auditor training course aimed at carbon professionals with a working knowledge of ISO 14064-1 who want to develop skills in auditing organisational GHG inventories.

Accreditation

This training prepares candidates for our forthcoming Carbon Auditor Accreditation. *NB: Accreditation fees are to be advised and not included in Training fees.*
