

ENERGY MANAGEMENT FOR FACILITIES MANAGERS

The Energy Management for Facilities Managers course is for professionals who manage buildings and facilities day-to-day. It was prepared with the help of the Facilities Management Association of New Zealand and offers training in energy management, focusing on the ways that building systems can make the most efficient use of resources.

Learn how to manage your property's energy use and gain a better understanding of the ways to manage and mitigate unnecessary energy use. Hear how to make the building perform more efficiently which can lead to substantial short and long-term energy and cost savings.

Who will benefit most from this training?

The course has been designed for commercial / office building facilities and maintenance managers, as well as property owners and property managers, who want to better understand the energy savings opportunities available and the strategies to implement them.

Registrations are open for the
Online delivery
being held on

3-6 November 2020 (Tue-Fri)

9:00am-12:30pm approx.

Brought to you by CEP in association with

CEP Training 2020

Attendee Feedback

"It can be difficult when beginning a new role. This course gives a broad and robust base, from which Energy can be effectively reduced in our facilities"

"The course material was very useful, relevant and informative. The trainers delivery of the course was interesting, knowledgeable and at a well delivered speed."
