

CARBON AUDITOR ONLINE TRAINING

Gain the skills how to undertake Greenhouse Gas (GHG) audits efficiently and effectively and prepare audits reports and opinions.

This 2-day course covers the requirements of ISO 14064-3:2019 for auditing organisational inventories, and prepares participants to perform the complete audit process including:

- auditing principles
- audit team selection
- preparing for audit
- audit activities and techniques
- how much review is enough?
- preparing audit reports and opinions

The course will include a mix of audit theory and practical activities.

Who will benefit most from this training?

This is training course aimed at carbon professionals with a working knowledge of ISO 14064-1 who want to develop skills in auditing organisational GHG inventories.

Please note: This course has the pre-requisite of the CEP 'Preparing a Carbon Inventory course', or equivalent for participants who do not have a working knowledge of ISO14064-1.

Trainer

Dr Belinda Mathers (General Manager Technical) Toitū Envirocare

Certification

This training prepares candidates for [Carbon Auditor Certification](#).

Attendee Feedback

"I thoroughly enjoyed the Carbon Auditor course; it provided all the tools and reference needed to perform a GHG verification and write an audit report. The trainer's knowledge and experience were of great value" Rhea Selwan,
Environment and Sustainability Professional
