

Energy Management for Facilities Managers “Live” Classroom Training

Overview

Are you a facilities manager, property owner, energy advisor looking to improve indoor environmental quality (IEQ) and make a positive impact on your property’s energy consumption and costs? This engaging course, designed in collaboration with the Facilities Management Association of New Zealand, offers invaluable insights into optimising building systems for efficient resource utilisation.

Who will benefit the most from this empowering course?

- Commercial and office building, facilities and maintenance managers
- Property owners, operations and asset managers
- Energy advisors and recent graduates

By attending, you will:

Learn how to manage your property’s energy use and gain a better understanding of the ways to manage and mitigate unnecessary energy use. Hear how to make the building perform more efficiently which can lead to substantial short and long term energy and cost savings.

Content covers:

Energy Management Fundamentals

- The Energy Problem (and the Building Solution)
- The Energy Management Process and ISO50001
- Energy Accounting
- Energy Purchasing
- The Energy Audit

Strategic Energy Management

- Optimising Energy Efficiency
- Advanced Energy Services
- Energy Management Reviews and Gap Analysis
- Energy Savings Verification
- Strategic Planning for Energy Management

Building Services and Using the BMS

- Building Heating and Cooling
- HVAC Systems
- Using BMS

Energy Efficient Fit Out and Tenant Comfort

- Lighting Efficiency
- Indoor Air Quality
- Optimising HVAC Controls for Comfort and Efficiency
- Data Centre Energy use and Savings Potential
- Trend Logging
- The Business Case

What attendees say

“I highly recommend this course to anyone who wants to learn about reducing/optimising a building’s energy usage. The course material is broad, educational, and to the point.”

“Fantastic information and wisdom from a lifetime of optimising energy consumption in buildings – the sort of information that cannot be found anywhere else and money simply can’t buy.”
